

Technology Strategy Board (TSB) & Ambient Assisted Living (AAL) Briefing Workshop

Monday 21 June 2010

All Nations Centre, Sachville Avenue
Heath, Cardiff, CF14 3NY

ALIP business & economic modelling and social and behavioural studies

The Technology Strategy Board (TSB), Economic and Social Research Council (ESRC) and the National Institute for Health Research (NIHR) have allocated £10M to invest in research projects looking into the Economic and Business Models and Social and Behavioural challenges facing the Assisted Living sector.

The call aims to bring together consortia of academics, industry, policy makers, health and social care professionals, third sector and service-users to carry out research with a high potential for impact in the areas of economic and business models, and social and behavioural studies of emerging assisted living technologies and services

Programme:
